- Middle to Bottom Shelf: 23½"
- Adjustable shelf to floor: 39¾"- 47¾" H
- Carton Pack: 30" W x 6" D x 51" H

COLOR/FINISH

- Black powder paint

Product Specifications

BB54SX-P4 WIDE-BODY CABINET STAND WITH ADJUSTABLE SHELF

Bretford's open shelf wide-body TV/VCR cart, BB54SX, has the strength and stability to support heavy AV/Video equipment. Large television monitors of up to 27" diagonal screens are easily supported on the BB54SX. Adjustable shelf between the top and middle shelves provides extra space for materials. Its wide-body design provides an oversized base shelf for greater stability especially during transport.

BB54SX-P4 96633 13512

WEIGHT AND FREIGHT CLASS

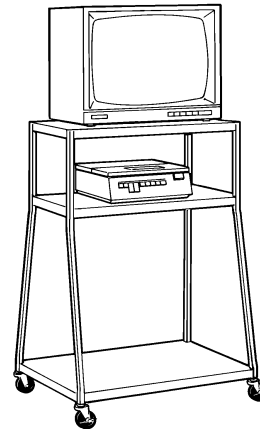

BB54SX-P4 64 pounds

Freight class: 85.

Ships UPS, ready to assemble in one carton pack.

SUGGESTED SPECIFICATIONS

BB54SX Series Wide-Body TV/VCR Table has two (2) 18 gauge steel 32" W x 22" D shelves, one (1) 18-gauge 32" W x 27½" D shelf (to be used as the bottom or base of the table), and one adjustable shelf that measures 32" W x 22" D and is attached with four screws. Adjustable shelf can be set in 2" increments to stand 39¾" to 47¾" from the floor. Each 32" W x 22" D shelf has a 2" diameter grommet hole located at the center and near the back edge. Shelves are press formed with a ⅛" lip bordering the top surface on all four (4) sides. Corners of the shelves open so the sides do not connect. Legs of table fit flush to the shelves. Each corner has 13-gauge steel mounting brackets with ¼" square head bolts and hex nuts that tighten to hold leg securely to table. The two (2) 32" W x 22" D shelves have two (2) ⅜" diameter holes centered on both the right side and the left side to accept an optional electrical assembly. Top three shelves have a grommet hole in rear for cord management. Legs of table are 18-gauge 1" square tubular steel. Each leg measures 49½" in length and is angled so the top part fastens to a 32" W x 22" D shelf and the bottom of the leg fastens to a 32" W x 27½" D base shelf. The table stands 54" H from the floor (including the 4" casters). Leg has hard plastic caster insert mounted in the bottom of the tube. Each leg shall have a hard plastic cap detail inserted into the bottom and top of the tube. Casters shall be mar resistant hard black rubber measuring 4" in diameter. Each caster assembly has ball bearing swivel capabilities and steel construction (two (2) with locking brakes). Model has a textured Black powder paint finish. Optional electrical assembly is completely enclosed with two (2) grounded outlets, 20 ft. 3-wire cord and two (2) ⅜" diameter machine screws with wing nuts for attaching unit to table. Optional electrical assembly is UL listed when attached. BB54SX-P4 Wide-Body TV/VCR Table ships knocked down (KD) in one (1) carton pack and ships via United Parcel Service (UPS).
