

PIONEER DVD Bar 'N' Coder™ Software

Pioneer has developed DVD Bar'N'Coder software for presenters in every field. Now it is even easier to deliver dynamic, engaging video presentations to groups large and small. Trainers, teachers, corporate presenters and attorneys alike are all

choosing DVD Bar'N'Coder to help get their message across. Using the power, speed and interactivity of the DVD format, more professionals are customizing audio and video segments on DVD-Video discs to suit their presentation themes. With a swipe of Pioneer barcode reader, you can instantly access relevant video for your audience. No fast-forwarding or rewinding tape to access a specific video clip. This DVD software, combined with Pioneer's industrial DVD-Video player, provides seamless search times that keep your audience focused on your important message.

- Lighting fast BARCODE frame access
